

WHAT SHOULD I CHOOSE?

To choose which option is best for you, ask yourself:

- Is there a level of confidence that will allow you to make an investment (Lease or Perpetual) and save money over the longer term?
- Should you Lease for 1 year then Rent if the project runs long by a few months?
- Does a month by month demand necessitate month by month Rental?

Based on the above questions the following graph allows you to find the most cost effective combination of purchase options.
